§ 26.41 What is the process for determining if a use of a national wildlife refuge is a compatible use?

The Refuge Manager will not initiate or permit a new use of a national wildlife refuge or expand, renew, or extend an existing use of a national wildlife refuge, unless the Refuge Manager has determined that the use is a compatible use. This section provides guidelines for making compatibility determinations, and procedures for documenting compatibility determinations and for periodic review of compatibility determinations. We will usually complete compatibility determinations as part of the comprehensive conservation plan or step-down management plan process for individual uses, specific use programs, or groups of related uses described in the plan. We will make all compatibility determinations in writing.

(a) *What information do we include in a compatibility determination?* All compatibility determinations will include the following information:

(1) The proposed or existing use;

(2) The name of the national wildlife refuge;

(3) The authorities used to establish the national wildlife refuge;

(4) The purpose(s) of the national wildlife refuge;

(5) The National Wildlife Refuge System mission;

(6) The nature and extent of the use including the following:

(i) What is the use? Is the use a priority public use?;
